SKILLS

Web Technologies

- React JS
- JavaScript
- TypeScript
- Redux
- Material UI
- Yup
- Node JS
- Webpack
- Parcel
- HTML
- CSS
- Vue.js

Microsoft Teams Application

- Graph API
- Teams Toolkit
- Versioning
- Manifest management
- Application Studio
- Teams Application
- Tabs

Tools

- Git
- Postman
- Swagger
- VS Code
- Adobe XD
- Jira
- AEM
- Docker
- InVisions
- Figma

Unit Testing

- Jest
- Enzyme

AWARDS

- Business Unit Award - Wipro Ltd.
Contribution towards account growth.
- Outstanding Contribution
Delivered more than three features within the given timeline.
- Collaboration Award - Wipro Ltd.
Enhanced customer satisfaction and delivery.

EDUCATION

Bachelor of Technology in Computer Science (DAVIET, India).

Akshita Kapoor

Senior Front End Developer

SUMMARY

Front End Developer with more than six years of proficiency in developing micro-front-ends and single-page applications. Contributed 97% of billability to the organization by delivering multiple features to the clients in cross-functional and SWAT teams. Highly skilled at implementing user designs using ReactJS and JavaScript.

EXPERIENCE

Freelance Senior Front-End Developer

February 2024 - Present

- Led two successful releases from inception to completion, collaborating closely with client to ensure timely delivery and adherence to project specifications.
- Implemented efficient front-end solutions, leveraging frameworks like React.js and Vue.js to enhance interactivity and streamline development processes.
- Collaborated with backend developers to optimize API endpoints and improve data fetching efficiency, resulting in a 30% reduction in loading times.

Senior Front-End Developer

Wipro Limited | June 2020 - December 2023

- Implemented more than 20 business features using ReactJS, Redux, and JavaScript for customers across the globe.
- Successfully upgraded a critical enterprise application using React 16 and Redux library within a short span of time, which resulted in follow-up projects from the customer.
- Ensured high code quality and tested code got promoted to the production environment with more than 80% unit test coverage using Jest.
- Managed release activities and CI/CD pipelines for front-end and back-end, leading to seamless deployment of docker artifacts on Dev, QA, UAT, and Production environments.
- Created in-house reusable UI components and templates that improved sprint efficiency by 30%.
- Mentored junior developers in different skill sets using best practices within the organization.
- Collaborated with cross-functional teams and stakeholders to ensure timely delivery of project milestones using agile/scrum development life cycle.
- Accommodated multiple spikes and provided analysis reports for seamless execution of the tasks in the sprints.

Front-End Developer

Wipro Limited | July 2018 - May 2020

- Developed 80% of the web functionality for the customer before the planned project timelines.
- Designed efficient request contracts and payloads by leading discussions with backend developers to improve product response times.
- Streamlined content management process by adopting Adobe Experience Manager (AEM).
- Disintegrated the static content management using AEM from the project release cycles, saving 100s of development, management, and release efforts with quick and real-time modifications in production.
- Resolved security issues and high-severity vulnerability issues with the principle of security by design, which reduced webpack promotion efforts.
- Rolled out beta version of service request management platform for users developing in React, Redux, and Redux-form, resulting in 50% faster processing and enhanced tracking of service requests.
